- In Art, feedback is an ongoing process to encourage reviewing and refining of the outcome, prior to it being finally realized. Much feedback occurs throughout the lesson, as pupils are working creatively and independently.
- Pupils' progress is linked to the unit of work's outcomes success criteria. It acknowledges what they have achieved so far and how they can further improve.

Building Retention: What prior learning must be built upon/revisited and how will it be assessed?

- The aim of this module is to give all pupils grounding in the formal elements of landscape which are required to develop more creative visual forms.
